

Semicon push: Regulatory norms for high-tech industries to be eased, says Goyal

Seeking to deepen Japan's role in India's semiconductor and electronics manufacturing ambitions, the Commerce and Industry Minister Piyush Goyal assured Japanese companies of easing regulatory hurdles, certification requirements and building a Japan-friendly social infrastructure at key hubs, including Dholera.

Speaking at the Semiconductor and AI roundtable where representatives of around 25 leading Japanese companies were present, Goyal said the concerns raised around BIS certification have already been taken up by him. "We have already instructed BIS and the Ministry of Commerce and Industry to work on a framework to support high-tech industries coming in to promote the Make in India program. Create a framework of exemption from BIS certification required for all the equipment and components that they need to bring to India," he said.

ReNew

ReNew invested Rs. 20,000 cr in Gujarat plans Rs. 1L/cr across sectors

At the SEQUENCE 2026 event on Monday, Vikram Kapur, group president, commercial, regulatory and new business, ReNew, shared that this is only the beginning: ReNew aims to pour up to ₹1 lakh crore across multiple sectors including data centers, renewable energy, pumped hydro, green hydrogen and the like over the next few years.

Dholera hosts 2 renew manufacturing units

From starting with its first project in Jasdan to now a 20,000 MW company, ReNew has come a long way in 15 years.

Kapur highlighted that Gujarat is central to their plans: it hosts two major manufacturing units at Dholera Special Investment Region (DSIR), with big capacities for solar modules and cells.

While exact investment splits weren't revealed, ReNew plans to scale investment across multiple sectors including data centers, renewable energy, pumped hydro, and green hydrogen.

'Hub and Spoke' international flight services launched from Ahmedabad Airport

Gandhinagar (Gujarat) [India], September 2 (ANI): International flight services under the Hub and Spoke model have been formally launched from Sardar Vallabhbhai Patel International Airport (SVPI) in Ahmedabad.

Under this initiative of the Union Ministry of Civil Aviation, Ahmedabad has become the third airport in the country after Amritsar and Varanasi to be integrated into India's leading hub-and-spoke framework for international passenger traffic.

Addressing the launch ceremony of the Hub and Spoke service, Chief Minister Bhupendra Patel said that under the leadership of Prime Minister Narendra Modi, India's development journey is progressing rapidly, with the infrastructure sector playing an important role in this growth.

He emphasised that under the 'Ude Desh Ka Aam Nagrik' approach, more than 679 routes have been made operational under the 'UDAN' scheme, providing air connectivity to common travellers and turning the dream of air travel into reality.

With the launch of the 'Hub and Spoke' service from Ahmedabad Airport, international travellers from Gujarat will directly benefit from the 'Ease of Travel', while passengers from smaller cities will be exempted from the boarding, customs and immigration processes.

He highlighted that Gujarat is emerging as a prominent centre for the aviation sector through projects such as aircraft leasing and financing at GIFT City and the greenfield airport under construction at Dholera, the country's first smart city.

These projects will also prove highly beneficial for the 'Vibrant Gujarat Global Summit', scheduled to be held in January 2027. Speaking about the state's airport infrastructure, he said that the state government is continuously accelerating the development of airport infrastructure, as a result of which a total of 19 airports, including 3 international airports, are currently operational in Gujarat.

He added that the advanced greenfield airport being developed at Dholera, the country's first smart city, will provide new momentum to the economy of Gujarat as well as the country in the coming years.

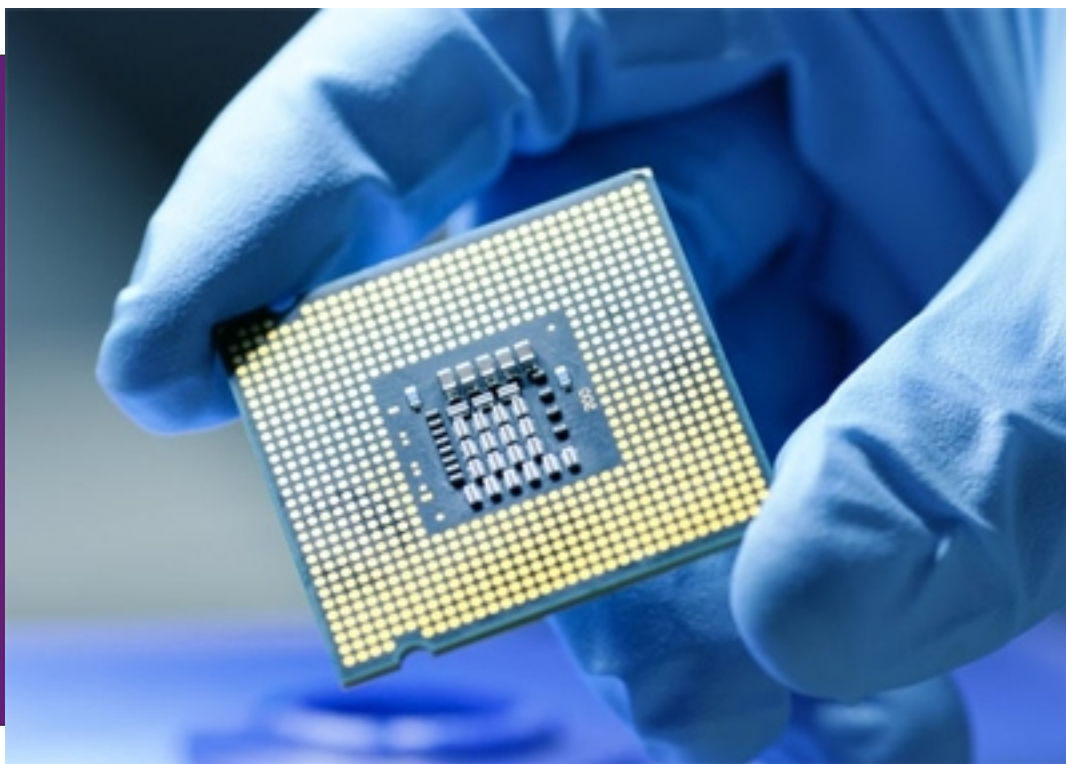

Union Minister of Civil Aviation K Ram Mohan Naidu stated that the Hub and Spoke model has been launched from Ahmedabad in line with the Prime Minister's vision to take India's civil aviation sector to new heights globally.

Given Ahmedabad's global connectivity, Gujarat's large NRI community and the needs of trade and industry, this model will play an important role. He stated that the Hub and Spoke model will provide easier connectivity from Ahmedabad via Delhi to around 15 international destinations.

With passengers being able to complete baggage checks and immigration procedures at Ahmedabad itself, they will not face the hassle of repeating these procedures while changing flights at Delhi, making international travel smoother and more convenient.

He stated that in 2014, the country had 74 airports, which has now increased to more than 160. Over the next ten years, there are plans to develop another 100 airports in the country with the expansion of the 'UDAN' scheme. The civil aviation sector is emerging as an important means of driving the country's economic growth, employment and trade and industrial development.

He stated that the growing air connectivity of Ahmedabad will give new momentum to sectors including hospitality, tourism, textiles, pharmaceuticals, diamonds and gems, engineering, semiconductors and manufacturing. He added that initiatives such as the 'UDAN Yatri Cafe', airport library and digital boarding pass are also being undertaken to further enhance passenger convenience and experience.

Gujarat Bets on AI, Semiconductors, Green Energy for Growth

Mumbai, Sep 3 (PTI) Gujarat is looking beyond traditional industrial growth and betting on new-age sectors such as semiconductors, artificial intelligence, data centres, green hydrogen, renewable energy, aerospace, defence and advanced manufacturing, Chief Minister Bhupendra Patel said on Thursday.

"New sectors such as semiconductors, AI, data centres, green hydrogen, renewable energy, aerospace, defence and advanced manufacturing are becoming the pillars of Gujarat's futuristic development," he said, speaking at an event here in the run-up to Vibrant Gujarat 2027.

Gujarat had set a target of becoming a USD 3.5 trillion economy by 2047 under its "Viksit Gujarat 2047" vision, he said.

USD 3.5 tn vision: Gujarat bets big on AI, chips and green energy to power 2047 growth

Gujarat is reshaping its economic roadmap, moving beyond traditional manufacturing and heavy industry to place artificial intelligence (AI), semiconductors and green energy at the core of its future growth. Chief Minister Bhupendra Patel also unveiled an ambitious industrial roadmap last month — predicting that the western state would become a \$3.5 trillion economy by 2047.

Patel said that “new sectors such as semiconductors, AI, data centres, green hydrogen, renewable energy, aerospace, defence and advanced manufacturing are becoming the pillars of Gujarat’s futuristic development,” as the state gears up for Vibrant Gujarat 2027.

The state’s Viksit Gujarat Industrial Policy 2026 also identifies 21 key sectors and outlines a framework for developing Gujarat into a “global hub for advanced manufacturing, innovation, and sustainable development”.

The semiconductor ecosystem being developed in Dholera and Sanand was highlighted as a key component of this shift. These hubs are expected to host fabrication units, assembly and testing facilities, and related supply chains, positioning Gujarat as one of India’s primary chip-making regions.

TESTIMONIALS

Mansi Patel, Mayank bhai Patel, Archana kori
Today we visited about dholera side so thank you
very much to mansiji, Archana ji and mayankji. ...

★★★★★ 2 hours ago **New**

Fabulous experience with the Dholera Sir Team and especially with Mr Jayveer and Ms Kashish who have the adequate knowledge about the product for resolving all queries and to bring confidence and satisfaction for the customers for decision ... [More](#)

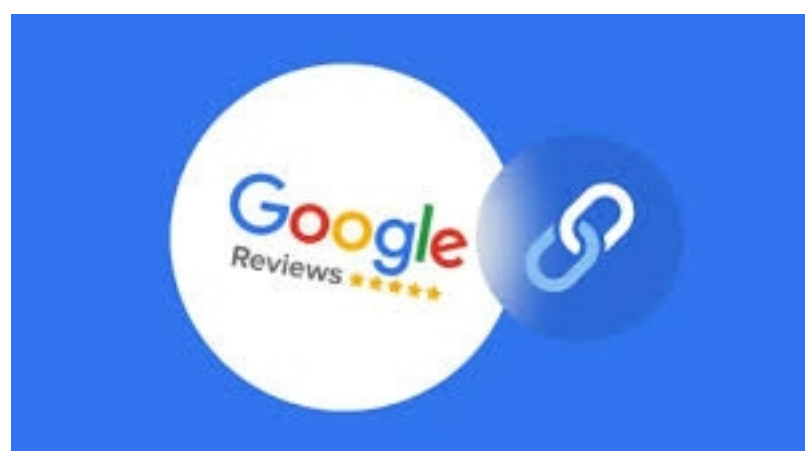

If you want to invest your hard earned money in Dholera please invest with a genuine people like them...The most trusted and transparent company in that area..Thank u so much mayurika ji...Highly recommended

★★★★★ just now

Team is very supportive. They have shown each & everyplace with all details. Specially Jagdish bhai & Kashish greeted very warmly.

★★★★★ just now

Great project to invest and DMC is very cooperative which helps at each step and Pooja from DMC client servicing is really helpful and explains everything in detail at each step.
